At present Edunet Foundation has direct presence in twenty odd states across India. Programs are delivered to 250,000 plus learners every year through their colleges, institutions, and schools. Programs delivered by Edunet range in duration from several hours to several months and are usually blended in nature, combining online asynchronous learning with synchronous video-based sessions, instructor-led in-classroom sessions, expert sessions, mentoring and project-based learning. Most programs have access to employment as the ultimate objective.

To measure this impartially and effectively, as a part of Edunet's ongoing efforts to enhance and improve its operations, Edunet wishes to enter a long-term contract with interested parties for ongoing impartial impact assessment and audit, pan India, for all its programs.

Scope of work:

1. Regional assessment in South, West, and North India. East India may be combined with North India for oversight purpose.
2. Communication with Edunet team members in these regions and participating in sessions – online, face to face and blended on an ongoing basis.
3. Random checks at partner institutions to measure quality and outcomes.
4. Scheduled visits to regional institutions at least once a quarter for face-to-face evaluation of work.
5. Submission of assessment reports on a regular basis, as demanded by Edunet Foundation.

We expect that this will require 2-2.5 person-years of effort with travel included.

Terms and conditions:

- Please quote all-inclusive rates for this scope of work covering workforce, overheads and travel within the region.
- Edunet is not mandating the number of people that will work on this Scope of Work. We expect that the selected supplier will ensure that people with the correct skills are always available for this work.
