At present Edunet Foundation has direct presence in twenty odd states across India. Programs are delivered to 250,000 plus learners every year through their colleges, institutions, and schools. Programs delivered by Edunet range in duration from several hours to several months and are usually blended in nature, combining online asynchronous learning with synchronous video-based sessions, instructor-led in-classroom sessions, expert sessions, mentoring and project-based learning. Most programs have access to employment as the ultimate objective.

To change the focus of the programs from mere employment to entrepreneurship, Edunet Foundation is seeking to augment its curriculum so that basics of entrepreneurial behavior are integrated in all programs offered around India.
